EXPERIENCE

STUDENT COMPANY PROJECT AT SCHOOL FESTIVAL

President

10th 10 hrs/week 16 weeks/year

Collected capital and started my own business with 8 members at my school, and opened a store at the school festival. Created a detailed business plan, a solid time schedule, and managed operations, sales, advertising, finance, which led our team to the highest award out of about 20 companies. Learned the basics of these business elements and developed my ability to demonstrate effective leadership to guide a team while incorporating diverse perspectives and values.

FIRST ROBOTICS COMPETITION

Financial Officer

11th 8 hrs/week 24 weeks/year

Established a general incorporated association at school with my friends to join the FRC. Supported our tech team by planning the budget, including robot parts and travel expenses, and securing funding through getting sponsorship contracts and crowdfunding, which contributed to our team getting the Rookie All-Star Award and to the world tournament. Learned basic financial skills and smooth communication skills that connect multiple different departments to improve the productivity of the entire team.
